Text Which Went With Follow Up Post To Develop 2 Projects In Trinidad and Tobago.

Date Sent: 2021. Sun/25/Apr/2021. Time: 4.15pm. Put on Facebook, LinkedIn, etc.

On April 16th, 2021 at 9.12 am, I posted this on my Facebook page, the ***Introduction to the Friendship Workship Contact Form*** to give Notice of 2 Upcoming Peaceful Sustainable Development Projects in Trinidad and Tobago.

Both of these will challenge persons and groups who have criminal intent and behaviour.

Therefore, there are risks for those who decide to become Friends and/or Workers in these 2 Projects.

My Daughter, her Husband and me, are prepared to take those Risks, since our future as family members depend on how we try to change unacceptable behaviour in our Beautiful Trinidad and Tobago.

As a Taxi Driver and a Victim of Pick Pocket thieves, I have no choice but to engage these practices and possibility of recurrence, to myself and all others who willing to help stop such practices and eliminate the possibility of recurrence.

Both of these Projects have Priceless Value in achieving Safety Comfort, Social Development, Emotional and Spiritual Comfort.

Of course, the Financial Benefits are going to be Huge in the Long Term, here in the first instance and worldwide thereafter. To challenge hundreds of years of Malpractice is going to take WORK and some degree of Strength and Capacity to so Engage. Especially those who have already suffered tremendous pain, in any form.

All those who are willing to help but want to stay Behind the Front-line Soldiers are most Welcome. Everybody can play a Role towards Peaceful Sustainable Development.

From the Experienced to the Academics can help. You do not need to Submit a Contact Form, but your desire to help is going to be most Welcome.

My Study History has been added to my Identification Card and Postal Address.

Yours in Nation Building.

Sincerely,

Signed……Donald D. Berment.
